Reset this PC

If your PC isn't running well, resetting it might help. This lets you choose to keep your personal files or remove them, and then reinstalls Windows. To complete the reset, you'll need to be connected to a network and follow the instructions on your PC.

[Learn about networking and other reset requirements](#)[Get started](#)[Help from the web](#)

Advanced startup

Start up from a device or disc (such as a USB drive or DVD), change your PC's firmware settings, change Windows startup settings, or restore Windows from a system image. This will restart your PC.

Choose which media to use

If you want to install Windows 10 on another partition, you need to create and then run the media to install it.

USB flash drive

It needs to be at least 8 GB.

ISO file

You'll need to burn the ISO file to a DVD later.
